

Note to Parents

The activities in this unit will help your child review skills learned in kindergarten, and will provide a jump start for Grade 1. These activities are designed to encourage your child's creativity, imagination and curiosity, while at the same time enhancing skills in reading, math, language arts, social studies or art. Most activities can be completed in a single short session. Based on favourite childhood themes, each activity is accompanied by colourful step-by-step illustrations and easy-to-follow instructions. A list of materials needed is provided below; specific materials may be listed for special projects. All materials are inexpensive and are usually found around your home.

It is a great benefit to children when parents work with them to facilitate their learning. Additional activities and other suggestions are listed at the end of each unit. Have fun!

Materials Needed:

- * pencil
- * eraser
- * crayons
- * coloured pencils
- * markers
- * scissors
- * glue
- * paint
- * paintbrush

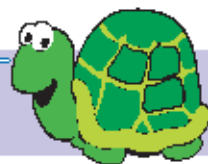

Parent-Assisted Activity Alert:

All the activities in this unit require assistance from an older person to read directions, supervise cutting and pasting, etc.
